## **NEW TEAS FROM STASH**

Portland, OR. Stash has added three new decaffeinated flavors to its line of specialty teas. Chocolate Hazelnut Decaf tea is a deliciously smooth and rich dessert tea. Chocolate, hazelnuts, vanilla, and premium black tea combine to create a fascinating blend of flavors. Sugar and a splash of milk bring out the taste of the chocolate and hazelnuts. The black teas are naturally decaffeinated, so you can savor this tea any time of day.

Raspberry & White Decaf Tea has a hint of fresh fruit sweetness which highlights the delicate flavor of Chinese white tea. Lemon & White Decaf tea combines lemongrass and pure lemon oil for a slight tartness that complements the white tea without overpowering its subtle essence. Picked from a special variety of the tea plant, white tea is high in antioxidants. The Stash decaffeination process preserves the natural flavor and health-enhancing qualities of this rare and delicate tea.

The two new Stash white teas join Stash Fusion Green & White tea, a blend of rare and expensive white tea from China and top quality green teas, and Stash Red & White tea, a unique brew with a pleasant herbal flavor that is rich in antioxidants. "Red Tea", also known as rooibos, is an indigenous herb from South Africa that is naturally caffeine free. All come in individually wrapped envelopes for superior freshness and flavor. Stash teas are all 100% natural and Kosher certified. Suggested retail \$2.99-\$3.59.

Stash Tea, headquartered in Portland, Oregon, prides itself on superior quality specialty teas. For more information on Stash products call (800) 547-1514 or visit our award-winning web site at [www.stashtea.com](http://www.stashtea.com).
